Dear Parents and Guardians,

As a result of recent legislation (SB12), all Texas school districts are now required to obtain signed parent consent for all medical treatment, assessments, and health services provided at school.

This new requirement takes effect September 1, 2025.

While many of you may have already completed a health history form during registration, this authorization for health services is a new requirement and must be completed for every student enrolled in the district.

To make this process easier, we have created a brief electronic form that should take no more than 3 minutes to complete. Your cooperation will allow us to respond quickly and effectively should your child ever need medical attention while at school.

Please complete a separate form for each child you have enrolled in the district. The form will ask for:

- Student Name
- Date of Birth
- Campus and Grade
- Parent Consent (Yes or No)
- Parent Email Address
- Electronic Signature

We appreciate your prompt attention to this matter, as having this authorization on file ensures we can best serve the health and safety needs of all students. **Scan the QR code above or find the link on the district website** under Departments/Health Information.

In the service of Banquete ISD,

Adriana Tagle
